Technical information

Productnumber : 98-6896GB

Product description

A steel rack with drip trays, also known as an environmental rack, is a dedicated storage rack designed for safe and organized storage of oils, chemicals or other potentially hazardous materials, while also providing protection against spills. The storage rack features 15 height-adjustable drip trays, meaning that the height of each drip tray can be adjusted according to the specific needs of the stored goods. Commonly used in factories, production facilities or warehouses where liquids such as oils, chemicals or other potentially hazardous materials are handled. An environmental census suitable for minimizing environmental impact and ensuring workplace safety.

Specifications

Article arrangement: Used

Version: basic shelf with 5 levels (15 retention basins)

Subgroup: Racks

Surface treatment: painted and use damage

Internal width (mm): 950

Depth (mm): 400

Type number: 6896GB

Type: Shelves with retention basins

Material: steel

Colour: grey/yellow

Width (mm): 3050

Height (mm): 200

Internal depth (mm): 390

EAN Code (Gtin) 8719424226799
