

## Technical information

Productnumber : 87301-V

### Product description

These TÜV certified stacking racks can be used as mobile storage racks. Available in various versions, but above all flexible in height. The loading floor is designed for all standard pallet sizes, voluminous or goods that are difficult to palletise.

You can determine the height of the stacking racks yourself by making a choice from the stanchion lengths below. To determine the useful height (read: height to be loaded), take the total stanchion length minus 170 mm (example: stanchion length 1680 mm - 170 mm = 1510 mm). Of course, deviations from the standard lengths are possible, please contact us for the possibilities.

An indispensable logistics solution for almost any warehouse or company logistics. Think of environments such as the metal industry, large construction, small construction, production companies and the automotive industry.

Looking for a temporary solution? Also available in our rental range!

### Specifications

Article arrangement: New  
Version: suitable for stanchions 60.3  
Floor: open lattice frame  
Surface treatment: galvanized  
Internal length (mm): 1300  
Internal width (mm): 930  
Insertion height (mm): 100  
Weight (kg) 33  
EAN Code (Gtin) 8719424025910

Type: mobile storage rack TÜV  
Material: steel  
Colour: colorless  
Length (mm): 1530  
Width (mm): 1165  
Height (mm): 300  
Loading capacity (kg): 2000  
Type number: 87301
