### Product description

Robust plastic storage bin 235x145x125 mm is ideal for storing your stock of small parts and service parts. With ergonomic semi-open front and practically stackable. The contents of the storage bin are easily accessible and when stacked they do not take up any unnecessary space. Very suitable for grab stocks (order picking) in workshops, garages, storage racks or service vehicles. The storage bin can also be mounted on rails or wall panel by means of a stable suspension edge at the back.

With the optional lids or front panels made of crystal-clear plastic, you prevent the contents from becoming dusty and the contents remain protected. With lids, the storage bins are also very suitable for use as an internal shipping unit. See items to combine.
