Technical information

Productnumber: 98-5114GB

Product description

Used stackable stacking racks / tire racks for the storage of passenger car tires. Equipped with an open bottom construction suitable for a maximum of 4 tires with a size of up to 18 inches. This versatile construction is painted green. The tire rack is high enough on all sides to be picked up with a pallet truck or forklift truck and therefore easy to move. The two blue lacquered side walls are removable, which saves you considerable space when not in use.

The racks are extremely suitable in environments such as the automotive industry, garages, workshops, warehouses or distribution halls. Because the height of the stacking racks is 750 mm, you can store tires very high. All this for a more effective warehouse!

Attention! The legs of these tire racks are partly ground out, but are still excellent and safe to stack.

Specifications

Article arrangement: Used Version: vertical load Walls: demountable

Surface treatment: painted and use damage

Internal length (mm): 1190 Internal width (mm): 750 Internal height (mm): 490

Weight (kg) 45

EAN Code (Gtin) 8719424193732

LAN Code (Gill) 87 19424 1937 32
