Technical information

Productnumber : 44-4420-452HD

Product description

Aluminum load securing bar or clamp bar. Often used in delivery vans or trailers for securing goods. Supplied with spring and rubber feet for good load distribution and firm pressure. The cargokeeper has a working length between 2350-2720 mm and a diameter of 42 mm. The clamping bar can optionally be further shortened.

Specifications

Article arrangement: New

Version: adjustable

Type number: 4420-CARGO

Length 2 (mm): 2350

Type: cargokeeper

Material: aluminium

Length 1 (mm): 2720

EAN Code (Gtin) 8719424104264
