

Productnumber: 12-150EURD

## **Product description**

The padlock has a 50 mm wide body made of solid copper that is strong, durable and corrosion resistant. The 7 mm diameter shackle is 25 mm long and made of hardened steel, making it extra resistant to cutting and sawing through. The 5-pin cylinder prevents the lock from being cracked, and the dual locking levers provide additional protection against breaking and opening. The limited lifetime warranty offers peace of mind coming from a brand you can trust.

- Padlock with 50 mm wide body made of solid copper for strength, durability and corrosion resistance
- Shackle made of hardened steel that is extra resistant to cutting
- Cylinder with 5 pins that is optimally resistant to cracking
- Dual blocking levers for added protection against breaking and opening

## **Specifications**
