Product description

Removable barrier post - Ø 60 mm - no chain eyes - red/white. A removable barrier post with cylinder lock that allows easy blocking or release of paths, driveways and traffic areas. After unlocking the cylinder lock, the post can be pulled out of the ground sleeve. Upon installation, the lock is automatically locked. Various versions with key or installation of a profile cylinder by the customer possible (locking system).

Note: For use in places where emergency services need access, please inform the local authorities. The PARAT B removable post is recommended for opening with a triangular key.

Characteristics of PARAT A removable bollards

- Three post diameters: 60 mm and 76 mm Ø or square 70 x 70 mm
- Drop-off posts are made of steel, hot-dip galvanized and coated red/white
- To be set in concrete with a ground sleeve (330 mm), above ground height 1,000 mm (concrete not included)
- With profile cylinder lock on the side, equal locking and three keys
- Available with or without chain eyes
