Technical information

Productnumber : 98-6762GB

Product description

Used KLT (Klein Last Träger) stacking bin euronorm 600x400 mm black. This robust used euro bin has four closed walls and a closed base. The two closed handles on both short sides ensure optimal handling. The plastic storage bin has a smooth, hygienic design on the inside and are therefore easy to clean. The robust exterior and special stacking edges ensure stable stacking. Thanks to the reinforced bottom, the bins are suitable for conveyors and roller conveyors.

The ESD (stands for ElectroStatic Discharge) stacking bin features electrostatic conductive plastic. When you store electronically sensitive equipment in ordinary plastic bins, there is a chance that the equipment could be damaged due to electrostatic discharge. ESD safe bins are made of plastic with a carbon addition, giving the bin a conductive function. This keeps the equipment safe from charging and electrostatic discharge.

Specifications

Article arrangement: Used

Version: KLT ESD all walls closed

Walls: walls closed

Food-safe: no

Colour: black

Length (mm): 600

Width (mm): 400

Height (mm): 280

Volume (ltr): 49

Type number: 6762GB

Type: stackable

Material: electrostatically conductive

Floor: reinforced

Euronorm (mm): 600 x 400

Surface treatment: signs of use

Internal length (mm): 540

Internal width (mm): 360

Internal height (mm): 255

Weight (kg) 3.5

EAN Code (Gtin) 8719424223422
