Technical information

Productnumber : 99-520GB

Product description

These stacking racks can be used as mobile storage racks. Available in various versions, but above all flexible in height. The loading floor is designed for all standard pallet sizes, voluminous or goods that are difficult to palletise.

You can determine the height of the stacking racks yourself by making a choice from the stanchion lengths below. To determine the useful height (read: height to be loaded), take the total stanchion length minus 170 mm (example: stanchion length 1680 mm - 170 mm = 1510 mm). Of course, deviations from the standard lengths are possible, please contact us for the possibilities.

An indispensable logistics solution for almost any warehouse or company logistics. Think of environments such as the metal industry, large construction, small construction, production companies and the automotive industry.

Looking for a temporary solution? Also available in our rental offer!

Specifications

Article arrangement: Used

Version: suitable for stanchions 60.3

Floor: open lattice frame

Surface treatment: galvanised with signs of use

Internal length (mm): 1300

Internal width (mm): 930

Insertion height (mm): 100

Type number: 87301

Type: mobile storage rack

Material: steel

Colour: colorless

Length (mm): 1530

Width (mm): 1165

Height (mm): 300

Weight (kg) 33

EAN Code (Gtin) 8719424038552
