

Technical information

Productnumber : 97-11235

Product description

The double staircase is made for use in industry and is easy and light to use. Thanks to the strong and tapered uprights, you always stand firmly on this double staircase. The high quality makes the difference with comparable industrial stairs from other brands.

The double staircase can be used on both sides and has 80 mm deep ribbed treads. The stairs have an angle of inclination of 70° and a high-quality woven spreader tape. The stairs also have ergonomically designed ladder beams. This makes the stairs convenient to use.

The steps are attached to the frame with bolts. This makes it easy to replace the steps.

The stairs are fitted with plastic ladder shoes. As a result, the stairs are always stable on the ground.

The landing stairs are certified and comply with EN-131. The product also meets the requirements of the Warenwetbesluit Portable Climbing Equipment.

Specifications

Article arrangement: New

Version: double-sided, 2x5 steps

Subgroup: Stairs

Width (mm): 490

Depth (mm): 1000

Options: Norm: EN 131

Additional specifications: type use: private and professional

Work height (mm): 2750

Type: industrial stairs

Material: aluminium

Surface treatment: aluminum

Height (mm): 1160

Weight (kg) 8.8

Type number: 97-1123

Horizontal platform (mm): 1160

EAN Code (Gtin) 8719424214550
