

## Product description

Used stackable stacking racks / tire racks for the storage of passenger car tires. Equipped with an open bottom construction suitable for a maximum of 4 tires with a size of up to 18 inches. This versatile construction is painted green. The tire rack is high enough on all sides to be picked up with a pallet truck or forklift truck and therefore easy to move. The two blue lacquered side walls are removable, which saves you considerable space when not in use.

The racks are extremely suitable in environments such as the automotive industry, garages, workshops, warehouses or distribution halls. Because the height of the stacking racks is 970 mm , you can store tires very high. All this for a more effective warehouse!

## Specifications

Article arrangement: Used
Version: vertical load
Walls: demountable
Surface treatment: painted and use damage
Internal length (mm): 1190
Internal width (mm): 750
Internal height (mm): 710
Weight (kg) 45
EAN Code (Gtin) 8719424193756

Type: stackable
Material: steel
Colour: green/blue
Length (mm): 1260
Width (mm): 800
Height (mm): 970
Insertion height (mm): 100
Type number: 5113GB
